Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 3-11 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on December 26, 2006.

2. Applicant's election with traverse of invention group I, claims 1 and 2, in the reply filed on December 26, 2006 is acknowledged. The traversal is on the ground(s) that the search of all claimed invention is not an undue burden as all the inventions are in the same class/subclass.

This is not found persuasive because the disorders treated in each of the inventions are distinct with respect to the etiology, symptoms, and have acquired a separate status in the art of treating as a separate subject matter for inventive effect and require independent searches. Note the search is not limited to patent literature. Search of all the claimed invention would be an undue burden.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections 35 U.S.C. 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Meyers (US 5,420,161, IDS).

5. Meyers teaches a method of inducing weight loss comprising administering to an warm blooded animals effective amounts of (+) cis- bisdehydrodoisynolic acid see particularly claims 7

Art Unit: 1617

and 8. 250 µg/kg/day and 2.5mg/kg/day are shown as effective amounts (see column 5, lines 10-23). It is noted that Meyers teaches a genus comprising six compounds for treating either male of female. The genus so such small that one of ordinary skill in the art would have at once envisaged the claimed invention, i.e., using (+) cis- bisdehydrodisynolic acid for treatment of male animals. See MPEP § 2131.02.
